Signature Adjustable Reclining Chaise

Model #11110

SAVE THESE INSTRUCTIONS

Please read and keep these instructions handy. These instructions will help you learn to use your Signature ARC properly and thoroughly so that you can achieve consistent, professional results.

Welcome

The Art Of Outdoor Living

What started as a moment of inspiration became thousands of hours spent obsessing over every contour, texture, and detail of your Signature Adjustable Reclining Chaise (ARC). From the way it naturally cradles your body at three ergonomic angles to its sculpted silhouette, your Signature ARC is crafted to look as exceptional as it feels. And with our industry-leading performance guarantee, it'll be there for every sunset dip, afternoon nap, and lifelong memory for years to come.

Assembly Guide

⚠ BEFORE YOU BEGIN

For fun and effective setup, prepare to get wet. Throw on your bathing suit, gather your setup materials and jump in!

NOTE: This product is heavy when filled. Always use **two people** for lifting and final placement. To prevent damage to the chaise or your pool surface, do not drag the unit into position.

HARDWARE & PARTS

Ledge Key

ARC Back

ARC Base

Assembly Guide

- 1** Remove the plugs from the bottom fill holes using the provided Ledge key. Then, place the ARC base in the deep end of your pool, holding it steady to prevent sinking.

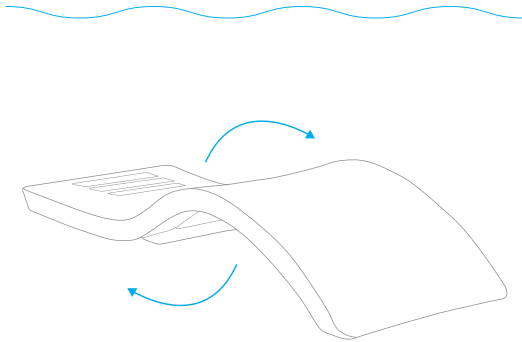

- 2** Submerge the front fill hole first. Water will enter quickly. Allow up to 2 minutes for it to fully submerge.

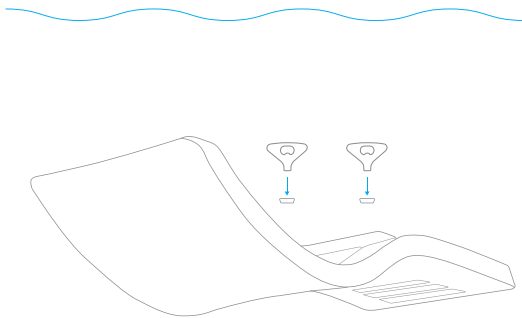

Assembly Guide

- 3** Once the entire chaise is filled, rock it several times front to back to release any remaining air.

- 4** While the ARC base is still submerged, screw the plugs back in using the Ledge Key. Handle plugs carefully to avoid cross-threading them.

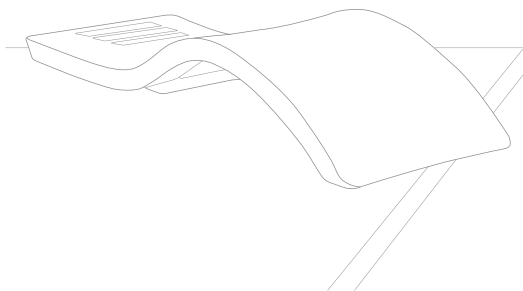

Assembly Guide

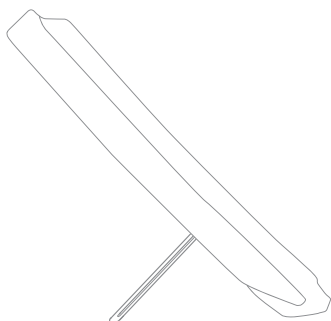

- 5** Position your ARC base in the desired location on your ledge. Use caution to avoid scratching or damaging the chaise or pool liner.

This product is heavy once filled; we recommend **two people** for safe lifting and placement.

- 6** Repeat steps 1-4 for the ARC back

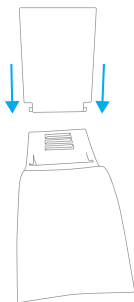

Assembly Guide

- 7** Bring the fully filled ARC back over to the fully filled ARC base and slide one side into the designated slot, then press down on the opposite side until it snaps securely into place.

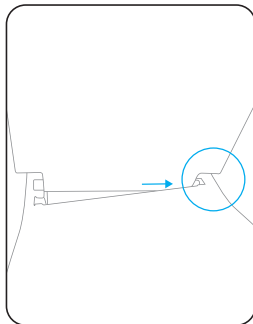

This product is heavy once filled; we recommend **two people** for safe lifting and placement.

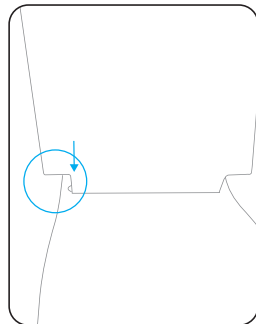

7A

Set in the direction of the arrows.

7B

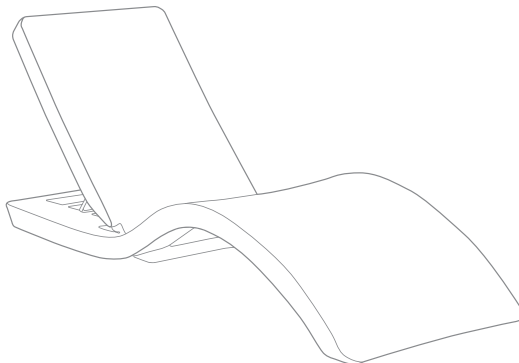

Slide in the direction of the arrow.

7C

Push in the direction of the arrow.

- 8** Enjoy your new chaise and the Art of Outdoor Living. Tag us [@ledgelounger](https://www.instagram.com/ledgelounger) for a chance to be featured!

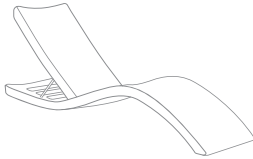

Assembly Guide

Adjusting the Recline Position

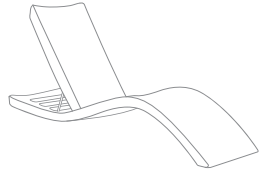

Standing beside the chaise, tilt the Adjustable Reclining Chaise back forward slightly to release the back rest support bar. Carefully guide the back rest support bar into your desired adjustment notch. Ensure the bar is fully secure before leaning back.

Patio Usage

Set Up

Your Signature Adjustable Reclining Chaise is designed for versatility and can be used on the patio. For optimal stability and performance, we recommend filling the chaise with water prior to use, follow the same steps (1-4) as the in-pool set up.

- Ensure the unit is placed on a smooth, level surface so it sits evenly and does not rock.
- Avoid dragging the console across rough surfaces to prevent scratching or damage to the base.

This product is heavy once filled; we recommend **two people** for safe lifting and placement.

Care & Cleaning

Routine Care:

- Rinse with a garden hose to remove dirt, dust, and debris.
- Use a soft cloth or brush with mild soap and water for routine cleaning. This step might seem small, but it's a crucial foundation for the following deep cleaning.

Stainless Steel Bar Care:

- Rinse regularly with fresh water to remove dirt and environmental residue.
- Dry with a soft cloth to help maintain appearance.

Care and Cleaning

Rinse Regularly: Use a standard water hose or your regular pool water to rinse away oils and spills after every few uses.

Dust Off the Debris: Use a soft brush or cloth to wipe away any remaining dust gently. This step might seem small, but it's a crucial foundation for the following deep cleaning.

Use a Sudsy Solution: Mix a small amount of mild detergent with water to create a soapy solution. Ensure the detergent is suitable for the material of your furniture to avoid any damage. Avoid harsh chemicals that could harm the environment or your furniture finish.

Note: Our chaise loungers are bleach-safe, ready to clean with an eraser sponge or diluted bleach solution.

Scrub: Dip your soft brush or cloth into the soapy solution and scrub your furniture in a gentle and circular motion to lift dirt and grime without scratching your in-pool chaise lounge. Extra elbow grease might be needed for stubborn spots.

Remove Calcium: Sometimes, a stain on your furniture may be caused by calcium buildup from high mineral levels in your pool water. If you notice stubborn white or gray lines on your furniture, use a calcium, lime, and rust remover to clean the affected areas.

Deep Clean: For deep cleaning tough stains, remove the in-pool furniture and spray with a deep mold and mildew stain remover. Let your furniture sit in the sun for at least 30 minutes, then scrub with a non-scratch or eraser sponge and rinse.

Care and Cleaning: Stainless Steel Bar

Routine Care:

- Rinse stainless steel bar with fresh water weekly to remove chlorides and chemical residue.
- Wipe dry with a clean microfiber cloth.
- Inspect periodically for discoloration or buildup.
- During shock treatments, we recommend removing your chaise from the pool and placing it back in only after the water has returned to a safe and balanced state.

Rinse thoroughly after exposure to:

- Saltwater splash
- High-chlorine events
- Cleaning agents or detergents

Cleaning:

- Use mild soap or stainless-safe cleaners.
- Avoid abrasive pads, steel wool, or harsh chemicals.
- For stubborn deposits, use a non-chloride stainless steel cleaner.

Safety Precautions

CAUTION

Indicates **actions that are general risk**.

PROHIBITED

Indicates **prohibited** actions that may must not be performed.

- ⚠ If the chaise is wet, the surface will be slippery.
- ⚠ This chaise is not a toy.
- ⚠ This chaise should only be used for the intended purpose of sitting.
- ⊘ **DO NOT** stand on chaise.
- ⊘ **DO NOT** allow children to play on or around chaise.
- ⊘ **DO NOT** use as a flotation device.
- ⊘ **DO NOT** position furniture tightly against pool walls. Leave space for proper water circulation to help prevent debris buildup and surface scratching.
- ⊘ **DO NOT** sit or stand on the console except for its intended and designed use.
- ⊘ **DO NOT** attempt to move chaise by pulling on the adjustable back or stainless steel bar.
- ⚠ Always check the temperature of the product before use.
- ⚠ Remember that the product may cause burns if left in direct sunlight.
- ⚠ Always be aware of the sun and weather conditions, and do not assume that the seat is safe because the air temperature is not very high.

Tips and Tricks

- Ensure unit is placed on a smooth, level surface so it sits evenly and does not rock.
- When moving furniture, lift it out of the water instead of dragging to avoid scratching.
- During periods of extreme heat, rinse surfaces occasionally with water to help keep your chaise cool.

FAQs

Can these stack for storage?

To avoid unnecessary wear or damage, do NOT stack the Signature Adjustable Reclining Chaise.

Will the back snag my fingers when adjusting?

We recommend keeping your fingers clear of the adjustment settings and hinges while the backrest is in motion to ensure a safe transition between positions. Always adjust the bar from a standing position.

Will the stainless steel bar rust in the water?

The stainless steel bar is made with a rust-resistant finish for moisture protection. To keep it looking its best, we recommend rinsing with fresh water after each use to remove chlorides and chemical residue, then wipe dry with a clean microfiber cloth. When the chaise is not in use, set it to the most upright position.

Will this damage my vinyl liner?

All of our in-pool products are safe for all pool surfaces, including vinyl liners. There are no sharp edges or corners that will tear or damage the liner in any way. Be careful about dragging your furniture on the deck, as this may cause scuffs in the plastic that can become sharp over time.

Will this get hot in the sun?

Resin furniture can absorb heat when left in direct sunlight, so the surface may feel warm. To stay comfortable, we recommend using a towel, cushion, or placing your furniture in partial shade during peak sun hours.

Will this fit your Signature Shades?

No, Signature Shades will not fit the Adjustable Reclining Chaise.

Will this fit your Signature Headrest Pillow?

Yes, the Signature Headrest Pillow will fit the Adjustable Reclining Chaise.

FAQs

Is the adjustable back safe for kids?

The Adjustable Reclining Chaise is designed for adult use. We recommend supervising children in reach of the adjusting mechanism.

Does the recommended water depth range change if I'm fully reclined?

When fully reclined, more water will cover the chaise, but the maximum recommended water depth remains at 9".

Will the adjustable back become loose over time?

The back should not loosen over time.

Performance Guarantee

In-Pool Furniture

All Ledge in-pool furniture is guaranteed to be free from material defects, and shall not splinter, crack, chip, peel, or rot for 15 years for residential use or 10 years for commercial use.

Stainless Steel Bar

This product is warranted against defects in materials and workmanship for 1 year from the date of purchase when used in properly maintained pool environments.

Not Covered:

- Corrosion caused by improper pool chemistry
- Exposure to excessive chlorides or chemical shock treatments
- Cosmetic discoloration at cut ends
- Damage from misuse, neglect, or lack of routine cleaning

Maintaining balanced pool chemistry and rinsing the stainless steel bar with fresh water will help ensure long-term performance.
