

 **LEDGE**[™]
LOUNGER
IN WATER. IN STYLE.

CHAISE INSTALLATION

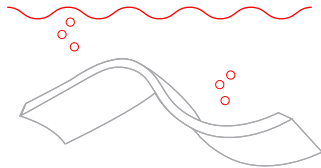

1

Locate the two threaded plugs on the bottom of your Chaise and unscrew them using a large flathead screwdriver. Don't discard the plugs, you will use them again in Step 4.

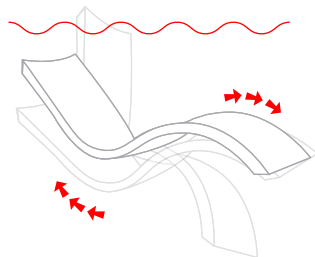

2

Fill your Chaise with water by submerging it completely, in a face down position. Allow water to enter through the upward facing, unplugged openings.

3

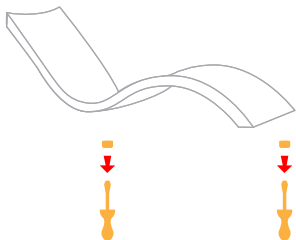

Continue to hold the Chaise underwater until the air is completely removed. Tilting and rotating the Chaise into different positions will help extract all of the air.

CHAISE INSTALLATION

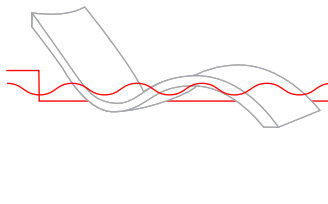

4

Use the flathead screwdriver to replace and close the two plugs. Plugs should be completely flush with the bottom of the Chaise before moving on to Step 5.

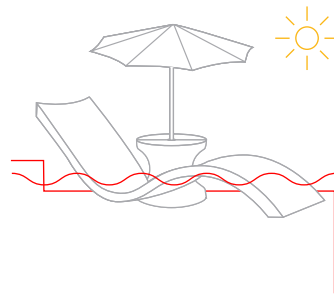

5

Position your Chaise in the desired location on your tanning ledge. Use caution to avoid scratching or damaging your seat.

6

Sit back and relax in water, in style! Take a photo, share it on social media and tag #LEDGELOUNGER

Alternate installation methods are not recommended. Please adhere to the guidelines outlined above to avoid scratching or damaging your Chaise.

CLEANING

Always use a soft bristle brush or cloth when cleaning your Ledge Lounger furniture. For routine cleaning, just use water.

For a deeper clean, remove from the pool and use a mild household or a Magic Eraser.

Depending on the calcium levels of your pool, you may notice a white powder like coating develop on your furniture. If this occurs, we recommend cleaning it with CLR Calcium, Lime and Rust Remover.

CARE

Your Ledge Lounger is made of ultra durable, high quality materials. It is designed for the pool environment and resistant to sun, weather, and the reasonable chemical levels of a well maintained pool. We encourage you to leave your Ledge Lounger in the pool even when not in use.

However, when adding shock or other highly concentrated chemicals to your pool, remove all Ledge Lounger products, and **return to the pool only once chemical levels are back to normal.**

In the event of a freeze, please remove your Ledge Lounger products from the water, drain, and store in a safe location.
