

# ASSEMBLY GUIDE FOR SIGNATURE CHAISE & CHAIR SHADE

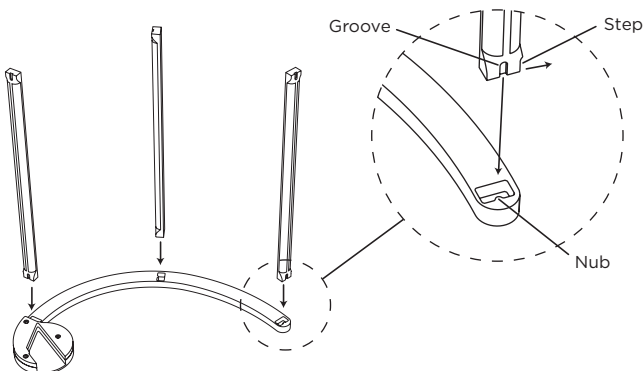

## IMPORTANT NOTE

No tools required for assembly.

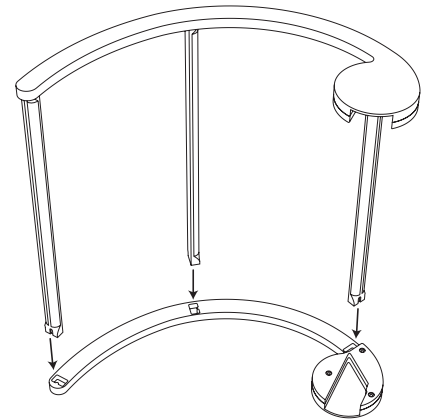

**STEP 1:** Set one side frame piece down with holes facing up.

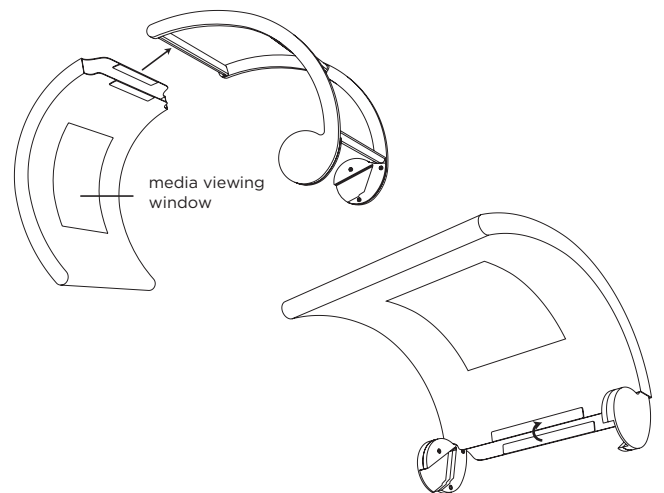

**STEP 2:** Match holes of the frame piece with tabs of the middle crossbars, inserting the 3 middle crossbar pieces into the side frame piece, and apply pressure to lock them together.

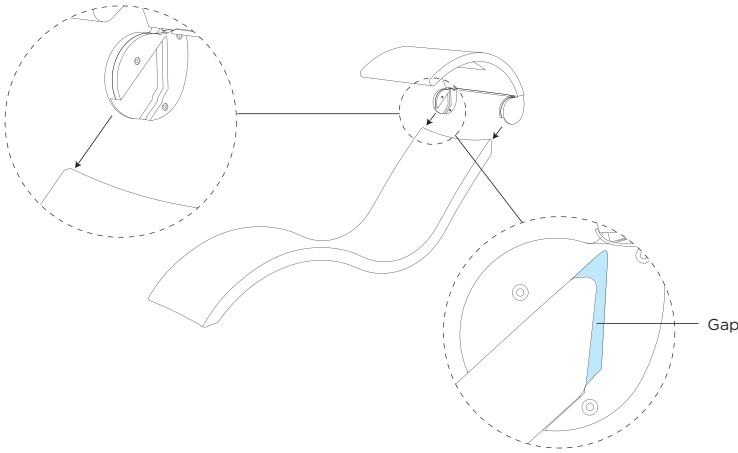

**STEP 3:** Set the second frame piece on top, repeating the process of inserting the tabs into the holes, and apply pressure to lock them together.

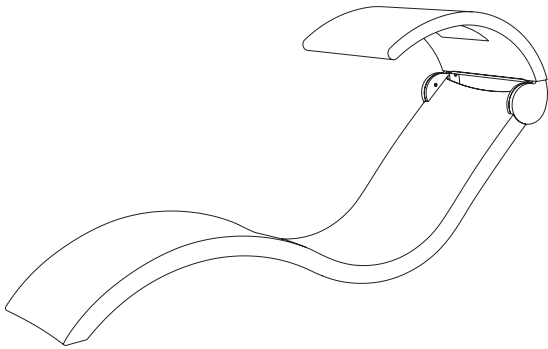

**STEP 4:** Slip fabric on to the frame with the clear media viewing window facing the inside of the curve, or the bottom of the shade. Close velcro flap.

**STEP 5:** Slide frame on to the back of seat. In some cases there's a gap between the seat and shade, this is normal as long as shade feels secure.

**STEP 6:** You're all done, enjoy your new product and begin creating life's most meaningful moments.

## ROUTINE CLEANING

For routine cleaning, just use water and a soft cloth or microfiber towel, or spray down with a water hose. For a deeper clean, use mild soap and water and a soft bristle brush.

## POWER WASHING

If power washing is desired, start with a low PSI, at least 3 ft away from furniture. Move closer or increase PSI gradually and with caution. While power washing, check often to ensure no inscription is left on the surface.
